Traditional marketing is in decline – 97% of families are turning to the web to find reputable local businesses.

Funeral-Choice.com will spend more on marketing than any individual or group of funeral homes in the country. This will enable us to attract, engage, and drive volume of potential customers to your funeral home more cost effectively.

We are expert new media marketers so you don't have to be. Our experts have made our platform to please both your client families and the search engines. This will reduce the money you spend advertising, trying to become visible to online viewers and out ranking other funeral homes.

Reduce lost opportunities – 75% of families who visit a website to learn more never contact the company. Funeral-Choice.com reduces those lost opportunities by providing specific information that families find valuable. This results in an increasing number of new families for your firm; saving you time, effort, and expenses you'd otherwise spend trying to find them on your own.

And best of all, it's free!

Funeral-Choice.com is designed to streamline the funeral arrangement decision-making process between families and funeral homes.

Funeral Directors need only to register their funeral home, create a profile by simply using profile editor. Once this is completed, the profile and the profile's contact person will be alerted to available opportunities to serve families who desire to arrange memorials in your area, *the moment the arrangements are made.*

If your Funeral Home is selected by a family, they will pay 10% of the agreed upon cost for the services they request to Funeral-Choice.com via our website as deposit. The balance of the agreed upon amount will be submitted to your Funeral Home directly from the family.
